## About Indore

Situated on the Malwa plateau; almost in the middle of two Jyotirlingas, Indore is the cleanest city of India. Besides its commercial importance it has now emerged as an educational hub. There are many renowned institutions in Indore like R-CAT, IIM & IIT. When it comes to quality education, it is not less than any metropolitan city.

## About Renaissance University

Renaissance, as the name suggests, is a new awakening. We believe in the ever existing scope of creativity and innovation and are committed to inculcate the same in our students, who in turn will do the same to our great Nation. Our philosophy symbolizes Nation building. At Renaissance University, we wish to create professionals who believe in oneness of the world, have outstanding exposure to this world, think globally and think big. It is very important to think out of the box and to think out of the boundaries.

Let us be creative & innovative, let us be different!

**CA Swapnil Kothari**  
Hon'ble Chancellor,  
Renaissance University, Indore

When I was a school going kid, one thought inspired me and was always on my mind. The golden thought was, "In coming years, big will not beat small, rather fast will beat the slow".

If you want to combat & conquer the world, start now! Think and act, learn & relearn, improve and develop, innovate & implement!

**Prof. (Dr.) Rajesh Dixit**  
Vice-Chancellor,  
Renaissance University, Indore

Every form of life, be it micro or macro, should be seen, analysed and understood. We not only expect this from our very own self but this same ideology should also be followed by our teachers and students.

**Prof. (Dr.) Pramod Sharma**  
Registrar  
Renaissance University, Indore

We believe in empowering students with strong knowledge base and quality standard of higher education in a holistic and multidimensional manner encompassing all theoretical, applied and conceptual aspects by maintaining the exclusiveness of the discipline.

## About Workshop

Today's dynamic environment call for innovations. Individuals and businesses which can think and act quick and pragmatic will survive. To be able to take realistic decisions, intelligence emerging from data is required. This requires quality research. Good quality research provides evidence that is robust, ethical, stands up to scrutiny and can be used to inform policy making. It should adhere to principles of professionalism, transparency, accountability and auditability. The aim of this workshop is to promote essential skills for improving quality in research.
